The payer shall directly

contact the person, who has received the transfer, on the issue of returning the money.

The Client is obliged to provide a payment order for the execution of the payment transaction in accordance with the instructions specified in the system and valid at the moment of the transfer. In case the Client is the recipient, it is obligated to provide detailed and precise information to the payer so that the payment order for the payment transaction in all cases complies with the instructions in the system and it is valid at the moment of the transfer. Before sending a payment order for the execution of a payment transaction or sending information to another payer, the Client is required to check and update the instructions on filling in the account.

In such a case fees for cancellation of the payment order indicated in the system are applied.
- 6.12. In all cases, when WireWallet receives a payment order but funds cannot be credited due to errors in the payment order or insufficiency of information, and neither the payer nor the recipient has contacted WireWallet for specification of the payment order or return of the funds, WireWallet undertakes all possible measures to track the payment operation in order to receive accurate information and execute the payment order. This measure is applied if there are possibilities to contact the provider of payment services of the payer by electronic means.
- 6.13. In all cases specified in article 6.12., the fee for specification of the payment order indicated in the system is applied by debiting it from the amount of the transfer before crediting the transfer to the account of the Client – recipient.

- 6.14. In case it is impossible to apply neither of the measures listed in clause 6.12. for tracking the payment operation and in other cases when it is still impossible to identify the recipient according to the indicated or corrected data, the funds are stored in the WireWallet system until the payer or the recipient contacts and additional data allowing to credit the funds to the recipient is provided (after debiting the fee for specifying/correcting the payment order from the transferred amount before crediting it to the account of the Client – recipient). Such funds may also be returned to the payer under a written request of the payer. The Client will be notified about the limit's entry into force by email.

- 7.6. WireWallet has the right to refuse to execute a payment order in case of a reasonable doubt that the payment order has been submitted by the Client or a Client's representative, payment order or the submitted documents are legitimate. In such cases, WireWallet has the right to demand from the Client to additionally confirm the submitted payment order and/or submit documents confirming the rights of persons to manage the funds held on the account or other documents indicated by WireWallet in a way acceptable to WireWallet at expense of the Client. - 7.9. WireWallet has the right to involve third parties to partially or fully execute the payment order of the Client if the Client's interests and/or the essence of the payment order require so. In the event that the essence of the payment order of the Client requires sending and executing the payment further by another financial institution, but this institution suspends the payment order, WireWallet is not responsible for such actions of the financial institution but makes attempts to find out the reasons for the suspension of the payment order. WireWallet has the right to suspend and/or terminate the execution of the payment order

of the Client, if required by law or in case it is necessary for other reasons beyond control of WireWallet.

- 7.10.
